ENHANCED USER EXPERIENCE. IMPROVED PERFORMANCE.

Keyboards and mice play an important role in getting the best performance from a PC. In other words the better the design and compatibility of the accessory, the better the performance. As a company that has invested years creating, designing and delivering the world's best PCs, Lenovo understands the impact they have on the overall experience and productivity the PCs offer.

The result: Every Lenovo keyboard and mouse is engineered to be ergonomic, durable and easy-to-use. Just as important, they are also fully tested and perfectly synchronized with the range of notebooks and desktops. What's more, Lenovo understands that the needs of users are as varied as their budgets. So, whether you are looking for the basics or the latest in technology and designs, our best-in-class accessories make sure you'll find one that matches your needs.
