Lenovo Device Intelligence Solutions Release Note v2.6

Components	Release Version	Availability Date
Lenovo Device Intelligence services	2.6	28 Jul 2021
User Device Services (UDS) Cloud Portal/Frontend	1.15	28 Jul 2021
Universal Device Client (UDC) Agent	UDC 3.6.0.62	28 Jul 2021

Enhancements Done

1. Added the link of LDI user guide in the "Help & Resources" dropdown in the navigation menu.
2. Added a checkbox - Don't show me this modal window again - on the Getting started page.

Bugs Fixed

1. The description of the issue was partially visible in the device tray.
2. The status of the deactivated device differed in the device tray and device listing page.
3. Unable to redirect to the "Detected Crashes" page when the filter was reset in the "Frequently Crashing" tab.
4. The device status was "Unresponsive" after the failure to register the device to LDI.
5. The "404 Error" page was visible when the "Getting Started" button was clicked in the Getting Started Modal window.
6. The text "No Firmware Found" was displayed instead of the Firmware name and version in the device tray.
7. Error in filter results in the App Performance and Device Errors section.
8. Unable to change the status of the Quick Remedy Filter.
9. Error in the layout of buttons and Health Score tooltip content in the Ticket Request tray.
10. Failure to highlight the header of the filtered column after application of the filter in the BIOS tab, in the Available Update section.
11. Filtration results were not visible even after applying the filter in the Device Errors section.
12. Broken link of Lenovo Warranty site in the device tray.
13. Failure to refresh the Ticket Request page.

Caveats, Open Issues, and Workarounds

	Issue Description	Severity	Workaround
1	The position of the scroll bar does not get refreshed after changing filter criteria.	Minor	Restart the device or refresh the page.
2	An invalid toast message is displayed when the connection is lost while creating a service group.	Minor	Refresh the page or restart the device or application.
3	The provisioning file button is visible on the Device list page for an IT Analyst.	Minor	Refresh the page.
4	Difference in the text of the status of the Health Score on the device listing page and the device tray.	Minor	None at this time
5	The dashboard and device tray do not reflect the right status of "Unresponsive" devices because they are shown as "Active" devices.	Major	None at this time
