Software description

The *Software and User Guide Disc* contains the Corel WinDVD program, which enables you to play back videos on both the hard disk drive of your computer and discs.

Chapter 2. Installing the drive

This chapter provides information about how to install the drive and software.

Before you begin

Before installing the drive, read the following information carefully.

- The drive is shipped with a static-protective package. Do not open the package until you are ready to install the drive.
 - Limit your movement when installing the drive. Movement can cause static electricity to build up around you.
 - Carefully handle the drive. Shaking or dropping the drive might damage the components inside the drive.
 - Take caution when connecting the power cable or SATA cable to avoid damaging the connectors or the drive.
-

Installing the drive

You can install the drive horizontally or vertically in a computer. For both installation ways, you must secure the disc that you insert before you close the disc tray, or the drive will not be able to read the disc correctly.

To install the drive, do the following:

1. Turn off all attached devices and the computer. Then, disconnect all power cords from electrical outlets and disconnect all cables that are connected to the computer.
2. Remove the computer cover. Refer to the documentation that came with your computer for instructions on removing the computer cover.
3. Locate the drive bay.
4. Touch the static-protective package that contains the drive to any unpainted surface for at least two seconds. Then, take the drive out of the package.
5. Slide the drive into the drive bay.
6. Align the screw holes in the drive with those in the bracket. Then, tighten the screws to install the drive.

Note: Be sure to use the screws in the option package to install the drive. Using any screws other than those provided might damage the drive.

7. Connect the power cable **1** and SATA cable **2** to the rear of the drive. Then, connect the other end of the SATA cable to the appropriate SATA connector on the system board in your computer.

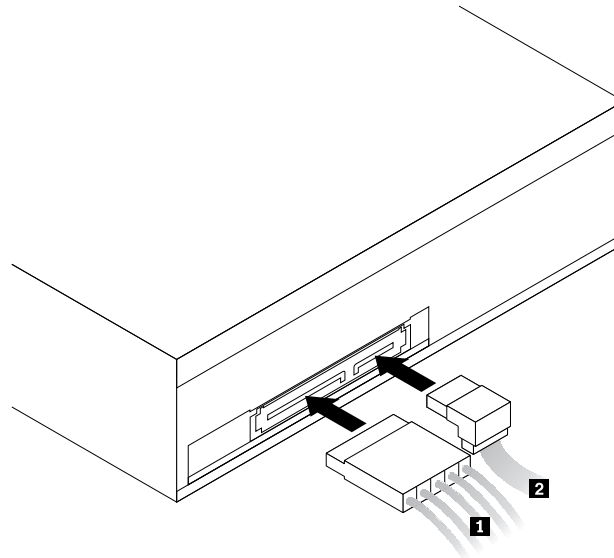

Figure 3. Connecting the power cable and SATA cable to the rear of the drive

8. Reinstall the computer cover.

Notes:

- Ensure that the drive is securely installed and that the cables are firmly connected.
- Ensure that the cables do not interfere with the computer cover, and that they do not block the system fan blades or airflow paths.

Installing software

After you have installed the drive to your computer, you can install the software on the *Software and User Guide Disc*. For the detailed software description, see “Software description” on page 2.

To install the software, do the following:

1. Save any open documents and exit all applications.
2. Insert the *Software and User Guide Disc* and do one of the following:
 - If the disc starts automatically, go to step 3.
 - If the AutoPlay window opens, click **Run ViewHtml.exe**. Then, go to step 3.
 - If the disc does not start automatically, go into **My Computer** or **Computer**, browse the CD/DVD drive, and double-click **ViewHtml.exe**.
3. Select your language.
4. On the left side of the window, click **Software**.
5. Follow the instructions on the screen.

Chapter 3. Using the drive

This chapter provides information about how to use the drive.

Inserting a disc

To insert a disc into the drive, do the following:

1. Turn on the computer.
2. Press the Open/Close button.
3. Insert a disc with the label facing up into the disc tray, and make sure that the disc is placed securely.
4. Close the disc tray by pressing the Open/Close button or by gently pushing the disc tray in.

Manually opening the disc tray

If you press the Open/Close button and the disc tray does not open, do the following to manually open the disc tray:

1. Turn off the computer.
2. Straighten a paper clip with the straightened end extending at least 45 mm (1.8 inches).

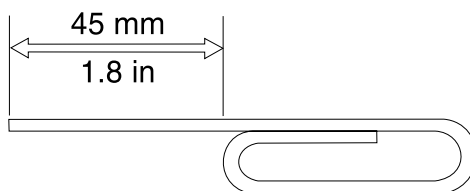

Figure 4. The straightened paper clip

3. Insert the straightened end into the emergency eject hole (see “Locating the controls” on page 2), and push the paper clip into the hole until the disc tray opens.
4. Gently pull the disc tray out until you can remove the disc.

Caring for the drive

To protect your drive, take the following precautions:

- Avoid exposing the drive to the following conditions:
 - Direct sunlight
 - Excessive dust
 - High humidity
 - High temperature
 - Mechanical vibration
 - Placement on an inclined surface
 - Sudden shock or dropping
 - Sudden temperature change

- Do not insert foreign objects into the drive.
- Do not move the drive when it is in use. Movement might cause data error or damage to the drive or disc.
- Do not move the drive when a disc is contained in the disc tray.
- Do not move the drive when the disc tray is not closed.
- Do not remove the drive cover or attempt to repair the drive.
- Do not stack objects on the drive.

Note: Keep the original packaging materials. If you need to ship the drive to a different location, use the original packaging materials to make sure that the drive is safely packaged for transportation.

Caring for discs

Discs are high-density media that must be handled with care and kept clean to ensure that they remain readable and writable. Take the following precautions to extend the service life of your discs.

For handling:

- Do not bend or flex discs.
- Do not insert discs into the drive or packaging materials with force.
- Do not touch the surface of discs.
- Do not touch the recording area of a disc when handling bare media.
- Do not use discs that are cracked.
- Handle discs by the edges or the center hole.
- Remove discs from the disc tray when not in use.

For storing:

- Store discs in their original packaging.
- Store discs away from direct heat sources.
- Store discs out of direct sunlight, high temperatures, and high humidity.

Appendix A. Troubleshooting

This chapter provides troubleshooting hints and tips to assist you when you experience problems with your drive. You might also need to refer to the publications that come with your computer.

If you encounter any of the following problems when using the drive, refer to the corresponding answers.

The DVD playback cannot resume after your computer resumes from suspend mode.

This is normal with some device drivers. The DVD playback will continue after you exit and restart the Corel WinDVD program.

DVD movies do not start automatically when you insert the disc into the drive.

You might have chosen to always start data discs in file only mode. Refer to the Microsoft® Windows® Help and Support program.

A message is displayed, indicating that there is a copy protection error, and playback stops when using the Corel WinDVD program.

Do one of the following:

- If an external monitor is connected, make sure that the external monitor is connected to a digital video output connector on your computer, such as a High Definition Multimedia Interface (HDMI), DisplayPort, or Digital Visual Interface (DVI) connector.
- Make sure that your graphics card and the Protected Media Path are working correctly when you are using the drive on Windows operating systems.

Appendix B. Service and Support

The following information describes the technical support that is available for your product, during the warranty period or throughout the life of your product. Refer to the Lenovo Limited Warranty for a full explanation of Lenovo warranty terms.

Online technical support

Online technical support is available during the lifetime of a product at:
<http://www.lenovo.com/support>

Product replacement assistance or exchange of defective components also is available during the warranty period. A Lenovo technical support representative can help you determine the best alternative. In addition, if your Lenovo option is installed into a Lenovo computer, the option takes on the warranty of the computer in which it is installed. For many Lenovo computers, this can entitle the Lenovo option for warranty service up to three years.

Telephone technical support

Installation and configuration support through the Customer Support Center will be available until 90 days after the option has been withdrawn from marketing. After that time, the support is cancelled, or made available for a fee, at Lenovo's discretion. Additional support is also available for a nominal fee.

Before contacting a Lenovo technical support representative, please have the following information available: option name and number, proof of purchase, computer manufacturer, model, serial number and manual, the exact wording of any error message, description of the problem, and the hardware and software configuration information for your system.

Your technical support representative might want to walk you through the problem while you are at your computer during the call.

Telephone numbers are subject to change without notice. The most up-to-date telephone list for Lenovo Support is always available at <http://www.lenovo.com/support/phone>. If the telephone number for your country or region is not listed, contact your Lenovo reseller or Lenovo marketing representative.

Appendix C. Lenovo Limited Warranty

L505-0010-02 08/2011

This Lenovo Limited Warranty consists of the following parts:

Part 1 - General Terms

Part 2 - Country-specific Terms

Part 3 - Warranty Service Information

The terms of **Part 2** replace or modify terms of **Part 1** as specified for a particular country.

Part 1 - General Terms

This Lenovo Limited Warranty applies only to Lenovo hardware products you purchased for your own use and not for resale. This Lenovo Limited Warranty is available in other languages at www.lenovo.com/warranty.

What this Warranty Covers

Lenovo warrants that each Lenovo hardware product that you purchase is free from defects in materials and workmanship under normal use during the warranty period. The warranty period for the product starts on the original date of purchase as shown on your sales receipt or invoice or as may be otherwise specified by Lenovo. The warranty period and type of warranty service that apply to your product are as specified in “**Part 3 - Warranty Service Information**” below. This warranty only applies to products in the country or region of purchase.

THIS WARRANTY IS YOUR EXCLUSIVE WARRANTY AND REPLACES ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. AS SOME STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF EXPRESS OR IMPLIED WARRANTIES, THE ABOVE EXCLUSION MAY NOT APPLY TO YOU. IN THAT EVENT, SUCH WARRANTIES APPLY ONLY TO THE EXTENT AND FOR SUCH DURATION AS REQUIRED BY LAW AND ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. AS SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATIONS ON THE DURATION OF AN IMPLIED WARRANTY, THE ABOVE LIMITATION ON DURATION MAY NOT APPLY TO YOU.

How to Obtain Warranty Service

If the product does not function as warranted during the warranty period, you may obtain warranty service by contacting Lenovo or a Lenovo approved Service Provider. A list of approved Service Providers and their telephone numbers is available at: www.lenovo.com/support/phone.

Warranty service may not be available in all locations and may differ from location to location. Charges may apply outside a Service Provider’s normal service area. Contact a local Service Provider for information specific to your location.

Customer Responsibilities for Warranty Service

Before warranty service is provided, you must take the following steps:

- follow the service request procedures specified by the Service Provider;

- backup or secure all programs and data contained in the product;
- provide the Service Provider with all system keys or passwords;
- provide the Service Provider with sufficient, free, and safe access to your facilities to perform service;
- remove all data, including confidential information, proprietary information and personal information, from the product or, if you are unable to remove any such information, modify the information to prevent its access by another party or so that it is not personal data under applicable law. The Service Provider shall not be responsible for the loss or disclosure of any data, including confidential information, proprietary information, or personal information, on a product returned or accessed for warranty service;
- remove all features, parts, options, alterations, and attachments not covered by the warranty;
- ensure that the product or part is free of any legal restrictions that prevent its replacement;
- if you are not the owner of a product or part, obtain authorization from the owner for the Service Provider to provide warranty service.

What Your Service Provider Will Do to Correct Problems

When you contact a Service Provider, you must follow the specified problem determination and resolution procedures.

The Service Provider will attempt to diagnose and resolve your problem by telephone, e-mail or remote assistance. The Service Provider may direct you to download and install designated software updates.

Some problems may be resolved with a replacement part that you install yourself called a “Customer Replaceable Unit” or “CRU.” If so, the Service Provider will ship the CRU to you for you to install.

If your problem cannot be resolved over the telephone; through the application of software updates or the installation of a CRU, the Service Provider will arrange for service under the type of warranty service designated for the product under “**Part 3 - Warranty Service Information**” below.

If the Service Provider determines that it is unable to repair your product, the Service Provider will replace it with one that is at least functionally equivalent.

If the Service Provider determines that it is unable to either repair or replace your product, your sole remedy under this Limited Warranty is to return the product to your place of purchase or to Lenovo for a refund of your purchase price.

Replacement Products and Parts

When warranty service involves the replacement of a product or part, the replaced product or part becomes Lenovo’s property and the replacement product or part becomes your property. Only unaltered Lenovo products and parts are eligible for replacement. The replacement product or part provided by Lenovo may not be new, but it will be in good working order and at least functionally equivalent to the original product or part. The replacement product or part shall be warranted for the balance of the period remaining on the original product.

Use of Personal Contact Information

If you obtain service under this warranty, you authorize Lenovo to store, use and process information about your warranty service and your contact information, including name, phone numbers, address, and e-mail address. Lenovo may use this information to perform service under this warranty. We may contact you to inquire about your satisfaction with our warranty service or to notify you about any product recalls or safety issues. In accomplishing these purposes, you authorize Lenovo to transfer your information to any country where we do business and to provide it to entities acting on our behalf. We may also disclose it where required by law. Lenovo’s privacy policy is available at www.lenovo.com/.

Types of Warranty Service

1. Customer Replaceable Unit (“CRU”) Service

Under CRU Service, the Service Provider will ship CRUs to you at its cost for installation by you. CRU information and replacement instructions are shipped with your product and are available from Lenovo at any time upon request. CRUs that are easily installed by you are called “Self-service CRUs”. “Optional-service CRUs” are CRUs that may require some technical skill and tools. Installation of Self-service CRUs is your responsibility. You may request that a Service Provider install Optional-service CRUs under one of the other types of warranty service designated for your product. An optional service offering may be available for purchase from a Service Provider or Lenovo under which Self-service CRUs would be installed for you. You may find a list of CRUs and their designation in the publication that was shipped with your product or at www.lenovo.com/CRUs. The requirement to return a defective CRU, if any, will be specified in the instructions shipped with a replacement CRU. When return is required: 1) return instructions, a prepaid return shipping label, and a container will be included with the replacement CRU; and 2) you may be charged for the replacement CRU if the Service Provider does not receive the defective CRU from you within thirty (30) days of your receipt of the replacement CRU.

2. On-site Service

Under On-Site Service, a Service Provider will either repair or exchange the product at your location. You must provide a suitable working area to allow disassembly and reassembly of the product. Some repairs may need to be completed at a service center. If so, the Service Provider will send the product to the service center at its expense.

3. Courier or Depot Service

Under Courier or Depot Service, your product will be repaired or exchanged at a designated service center, with shipping at the expense of the Service Provider. A courier will pick up your product and deliver it to the designated service center. The service center will return the product to you at its expense.

4. Customer Carry-In Service

Under Customer Carry-In Service, your product will be repaired or exchanged after you deliver it to a designated service center at your risk and expense. After the product has been repaired or exchanged, it will be made available to you for collection. If you fail to collect the product, the Service Provider may dispose of the product as it sees fit, with no liability to you.

5. Mail-In Service

Under Mail-In Service, your product will be repaired or exchanged at a designated service center after you deliver it at your risk and expense. After the product has been repaired or exchanged, it will be returned to you at Lenovo's risk and expense, unless the Service Provider specifies otherwise.

6. Customer Two-Way Mail-In Service

Under Customer Two-Way Mail-In Service, your product will be repaired or exchanged after you deliver it to a designated service center at your risk and expense. After the product has been repaired or exchanged, it will be made available to you for return shipping at your risk and expense. If you fail to arrange return shipment, the Service Provider may dispose of the product as it sees fit, with no liability to you.

The replacement product becomes your property in exchange for the failed product, which becomes the property of Lenovo. You must pack the failed product in the shipping carton in which you received the replacement product and return it to Lenovo. Transportation charges, both ways, shall be at Lenovo's expense. If you fail to use the carton in which the replacement product was received, you may be responsible for any damage to the failed product occurring during shipment. You may be charged for the replacement product if Lenovo does not receive the failed product within thirty (30) days of your receipt of the replacement product.
